Beginning January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Fund's shareholder reports will no longer be sent by mail unless you specifically request paper copies of the reports from the Fund or from your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on usaa.com, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change, and you need not take any action. You may elect to receive shareholder reports and other communications from the Fund or your financial intermediary electronically by notifying your financial intermediary directly, or if you are a direct investor, by calling (800) 235-8396 or logging on to usaa.com.

You may elect to receive all future reports in paper free of charge. You can inform the Fund or your financial intermediary that you wish to continue receiving paper copies of your shareholder reports by notifying your financial intermediary directly, or if you are a direct investor, by calling (800) 235-8396 or logging on to usaa.com. Your election to receive reports in paper will apply to all funds held with the USAA family of funds or your financial intermediary.

Victory Capital means Victory Capital Management Inc., the investment manager of the USAA Mutual Funds. INVESTMENT OBJECTIVE

The **USAA World Growth Fund** (the “Fund”) seeks capital appreciation.

FEES AND EXPENSES

The tables below describe the fees and expenses that you may pay, directly and indirectly, to invest in the Fund. The annual fund operating expenses for the Fund Shares, Institutional Shares, and Adviser Shares are based on expenses incurred during the Fund’s most recently completed fiscal year.

Shareholder Fees

(fees paid directly from your investment)

	Fund Shares	Inst. Shares	Adviser Shares
	None	None	None

Annual Fund Operating Expenses

(expenses that you pay each year as a percentage of the value of your investment)

	Fund Shares	Inst. Shares	Adviser Shares
Management Fee	0.75% ^(a)	0.75% ^(a)	0.75% ^(a)
Distribution and/or Service (12b-1) Fees	None	None	0.25%
Other Expenses	0.34%	0.36%	0.46%
Total Annual Fund Operating Expenses	1.09%	1.11%	1.46%
Fee Waiver/Reimbursement	None	(0.11%)	(0.11%)
Total Annual Fund Operating Expenses after Reimbursement	1.09%^(b)	1.00%^(b)	1.35%^(b)

^(a) Victory Capital Management Inc. (the “Adviser”) has agreed that no performance adjustment (positive or negative) will be made to the amount payable to the Adviser from July 1, 2019, through June 30, 2020. Thereafter, the management fee may fluctuate based on the Fund’s performance relative to a securities market index. See **Fund Management** section for a description of the performance adjustment.

^(b) The Adviser has contractually agreed to waive its management fee and/or reimburse expenses so that the total annual operating expenses (excluding certain items such as interest, taxes, and brokerage commissions) do not exceed 1.09% of the Fund Shares, 1.00% of the Institutional Shares, and 1.35% of the Adviser Shares, through at least June 30, 2021. The Adviser is permitted to recoup advisory fees waived and expenses reimbursed for up to three years after the fiscal year in which the waiver or reimbursement took place, subject to the lesser of any operating expense limits in effect at the time of: (a) the original waiver or expense reimbursement; or (b) the recoupment, after giving effect to the recoupment amount.

The amount of any waivers or reimbursements and the amount of any recoupment is calculated without regard to the impact of any performance adjustment to the Fund's management fee. This agreement may only be terminated by the Fund's Board of Trustees.

Example

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. Although your actual costs may be higher or lower, you would pay the following expenses on a \$10,000 investment, assuming (1) a 5% annual return, (2) the Fund's operating expenses remain the same, (3) you redeem all of your shares at the end of the periods shown, and (4) the expense limitation agreement for each class of shares is not continued beyond its expiration date.

	1 Year	3 Years	5 Years	10 Years
Fund Shares	\$111	\$347	\$601	\$1,329
Inst. Shares	\$102	\$333	\$593	\$1,334
Adviser Shares	\$137	\$442	\$779	\$1,729

Portfolio Turnover

The Fund pays transaction costs, including commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when shares of the Fund are held in a taxable account. These costs, which are not reflected in the Annual Fund Operating Expenses or in the Example, affect the Fund's performance.

For the most recent fiscal year, the Fund's portfolio turnover rate was 8% of the average value of its whole portfolio.

PRINCIPAL INVESTMENT STRATEGY

The Fund's principal investment strategy is to invest its assets primarily in equity securities of both foreign (including emerging markets) and domestic issuers. The "equity securities" in which the Fund principally invests are common stocks, depositary receipts, preferred stocks, securities convertible into common stocks, and securities that carry the right to buy common stocks.

While the Fund may invest in securities of companies of any size, it generally focuses on securities of companies with large market capitalizations. The Fund normally will invest its assets in investments that are tied economically to a number of countries throughout the world. However, the Fund may invest a significant percentage of its assets in securities of issuers in a single country, a small number of countries, or a particular geographic region.

The Fund uses a combination of quantitative analysis as well as an active bottom-up investment approach to buying and selling investments. A quantitative process is used to systematically evaluate an issuer's valuation, price and earnings momentum, earnings quality, and other factors also may be considered. Investments are also selected based on fundamental analysis of individual issuers and their potential in light of their financial condition and market, economic, political, and regulatory conditions. Factors considered may include analysis of an issuer's earnings, cash flows, competitive position, and management ability.

PRINCIPAL RISKS

Any investment involves risk, and there is no assurance that the Fund's objective will be achieved. The Fund is actively managed and the investment techniques and risk analyses used by the Fund's manager(s) may not produce the desired results. As you consider an investment in the Fund, you also should take into account your tolerance for the daily fluctuations of the financial markets and whether you can afford to leave your money in the Fund for long periods of time to ride out down periods. As with other mutual funds, losing money is a risk of investing in the Fund.

The equity securities in the Fund's portfolio are subject to stock market risk. A company's stock price in general may decline over short or even extended periods, regardless of the success or failure of the company's operations. Stock markets tend to run in cycles, with periods when stock prices generally go up and periods when stock prices generally go down. Equity securities tend to be more volatile than debt securities. In addition, to the extent the Fund invests in foreign securities, there is a possibility that the value of the Fund's investments in foreign securities will decrease because of unique risks, such as currency exchange-rate fluctuations; foreign market illiquidity; emerging market risk; increased price volatility; uncertain political conditions; exchange control regulations; foreign ownership limits; different accounting, reporting, and disclosure requirements; difficulties in obtaining legal judgments; and foreign withholding taxes. These risks are particularly heightened in this Fund because investments in emerging-market countries generally are more volatile than investments in developed markets. Emerging-market countries are less economically diverse and mature than more developed countries and tend to be politically less stable.

The Fund's performance could be closely tied to the market, currency, economic, political, regulatory, geopolitical, or other conditions and developments in the countries or regions in which the Fund invests. As such, the Fund's performance could be more volatile than the performance of more geographically diversified funds.

An investment in the Fund is not a deposit in a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

PERFORMANCE

The following bar chart and table are intended to help you understand the risks of investing in the Fund. The Fund has three classes of shares: Fund Shares, Institutional Shares, and Adviser Shares. The bar chart provides some indication of the risks of investing in the Fund and illustrates the Fund Shares class's volatility by showing how performance has varied from year to year for each full calendar year over the past 10 years. The table shows how the average annual total returns of the share classes for the periods indicated compared to those of the Fund's benchmark index and an additional index of funds with similar investment objectives. Performance reflects any expense limitations in effect during the periods shown.

Performance data for the classes varies based on differences in their fee and expense structures. Remember, historical performance (before and after taxes) does not necessarily indicate what will happen in the future. For the Fund's most current performance information, log on to usaa.com or call (800) 235-8396.

RISK/RETURN BAR CHART
Annual Returns for Periods Ended December 31

During the periods shown in the chart:	Returns	Quarter ended
Highest Quarter Return	19.17%	June 30, 2009
Lowest Quarter Return	-18.02%	September 30, 2011
Year-to-Date Return	20.87%	June 30, 2019

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. In certain situations, the return after taxes on distributions and sale of

fund shares may be higher than the other return amounts. A higher after-tax return may result when a capital loss occurs upon redemption and translates into an assumed tax deduction that benefits the shareholder. The actual after-tax returns depend on your tax situation and may differ from those shown. If you hold your shares through a tax-deferred arrangement, such as an individual retirement account (“IRA”) or 401(k) plan, the after-tax returns shown in the table are not relevant to you. Please note that after-tax returns are shown only for the Fund Shares and may differ for each share class.

AVERAGE ANNUAL TOTAL RETURNS For Periods Ended December 31, 2018

	Past 1 Year	Past 5 Years	Past 10 Years	Since Inception	Inception Date
Fund Shares					
Return Before Taxes	-9.77%	4.08%	10.50%		
Return After Taxes on Distributions	-11.12%	3.20%	9.94%		
Return After Taxes on Distributions and Sale of Fund Shares	-4.67%	3.20%	8.75%		
Institutional Shares					
Return Before Taxes	-9.74%	–	–	3.34%	8/7/2015
Adviser Shares					
Return Before Taxes	-10.00%	3.84%	–	8.70%	8/1/2010
Indexes					
MSCI World Index (reflects no deduction for fees, expenses, or taxes)	-8.71%	4.56%	9.67%	8.49%	8/1/2010*
Lipper Global Funds Index (reflects no deduction for taxes)	-10.73%	3.89%	8.96%	7.43%	8/1/2010*

* The performance of the MSCI World Index and the Lipper Global Funds Index is calculated from the end of the month, July 31, 2010, while the inception date of the Adviser Shares is August 1, 2010. There may be a slight variation in performance because of the difference. The average annual total returns for the MSCI World Index and the Lipper Global Funds Index from August 7, 2015, through December 31, 2018, were 4.23% and 12.26%, respectively.

INVESTMENT ADVISER

Effective July 1, 2019, Victory Capital Management Inc. (the “Adviser”) serves as the Fund’s investment adviser.

The portfolio managers primarily responsible for the day-to-day management of all or a portion of the Fund are members of the Adviser’s RS Investments Developed Markets (“RS Developed Markets”) investment franchise and its Victory Solutions platform. In addition, Massachusetts Financial Services Company d/b/a MFS Investment Management (“MFS”) serves as a subadviser to manage all or a portion of the Fund.

PORTFOLIO MANAGERS

	Title	Tenure with the Fund
U-Wen Kok	Chief Investment Officer, RS Developed Markets	Since July 2019
Adam Mezan	Portfolio Manager, RS Developed Markets	Since July 2019
Mannik S. Dhillon, CFA, CAIA	President, VictoryShares and Solutions	Since July 2019
Wasif A. Latif	Head of Investments, VictoryShares and Solutions	Since July 2019
Ryan McAllister	Investment Officer and Portfolio Manager, MFS	Since 2016
Roger Morley	Investment Officer and Portfolio Manager, MFS	Since 2009

PURCHASE AND SALE OF SHARES

Fund Shares:

You may purchase or sell Fund Shares any business day through the usaa.com website or by telephone at (800) 235-8396. You also may purchase or sell Fund Shares through certain other financial intermediaries. If you have opened an account directly with the Fund, you also may purchase and sell Fund Shares by mail at P.O. Box 659453, San Antonio, Texas 78265-9825.

- **Minimum initial purchase:** \$3,000
- **Minimum subsequent investment:** \$50

Institutional Shares:

The Institutional Shares are not offered for sale directly to the general public. The minimum initial purchase is \$1 million; however, the Fund reserves the right to waive or lower purchase minimums in certain circumstances.

Adviser Shares:

Adviser Shares are available for investment through financial intermediaries. Your ability to purchase, exchange, sell, and transfer shares will be affected by the policies of the financial intermediary through which you do business. The minimum initial purchase is \$3,000; however, financial intermediaries may set different investment minimums in certain circumstances.

TAX INFORMATION

The Fund intends to make distributions that generally will be taxed to you as ordinary income or long-term capital gains, unless you are a tax-exempt investor or you invest through an IRA, 401(k) plan, or other tax-deferred account (in which case you may be taxed later, upon withdrawal of your investment from such account).

PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of such shares and certain servicing and administrative functions. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

Victory Capital Management Inc. (“Victory Capital,” “Adviser,” or “Manager”) manages this Fund. For easier reading, Victory Capital may be referred to as “we” or “us” throughout the prospectus.

INVESTMENT OBJECTIVE

■ What is the Fund’s investment objective?

The Fund seeks capital appreciation. The Fund’s Board of Trustees (the “Board”) may change this investment objective without shareholder approval.

MORE INFORMATION ON THE FUND’S INVESTMENT STRATEGY

■ What is the Fund’s investment strategy?

The Fund invests its assets primarily in equity securities of both foreign (including emerging markets) and domestic issuers. The “equity securities” in which the Fund principally invests are common stocks, depositary receipts, preferred stocks, securities convertible into common stocks, and securities that carry the right to buy common stocks including rights and warrants.

In addition to the principal investment strategy discussed above, the Fund may seek to earn additional income through securities lending.

■ Why are foreign and domestic stocks combined in the Fund’s portfolio?

We believe that foreign stocks may have a balancing impact with regard to domestic stocks during periods of adverse economic and market conditions in the United States. Therefore, the Fund combines the advantages of investing in a diversified international market and domestic market, with the convenience and liquidity of a mutual fund based in the United States.

■ Are there any restrictions as to the types of businesses or operations of companies in which the Fund’s assets may be invested?

No, there are no restrictions except that the Fund may invest no more than 25% of its total assets in any one industry. The Fund normally allocates its investments across different industries and sectors, but the Fund may invest a significant percentage of its assets in issuers in a single or small number of industries or sectors. The Fund normally will invest its assets in investments that are tied economically to a number of countries throughout the world. However, the Fund may invest a significant percentage of its assets in securities of issuers in a single country, a small number of countries, or a particular geographic region. While the Fund may invest its assets in securities

of companies of any size, it generally focuses on securities of companies with large market capitalizations. Under normal market conditions, the Fund's investments will be diversified in at least three countries, one of which is the United States.

■ How are the decisions to buy and sell securities made?

RS Developed Markets

RS Developed Markets employs both fundamental analysis and a data-driven approach in seeking to identify companies across the market capitalization spectrum that it believes can sustain long-term growth. Valuation is also an integral part of the investment process. RS Developed Markets seeks to identify companies that it believes possess strong earnings quality, operational efficiency, sound management, favorable growth characteristics, and attractive valuations, and that enjoy favorable market sentiment. RS Developed Markets monitors macroeconomic and political trends, as well as risk exposures, as part of the overall investment process.

RS Developed Markets regularly reviews the portfolio and will sell securities when it believes the securities are no longer attractive because (1) of a deterioration in rank of the security in accordance with the manager's process, (2) of price appreciation, (3) of a change in the fundamental outlook of the company or (4) other investments available are considered to be more attractive.

Victory Solutions

In making investment decisions for the Fund, Victory Solutions will invest the Fund's assets allocated to it in a portfolio of securities that is customized to the Fund. Taking into consideration the holdings selected by the Fund's other investment managers, Victory Solutions will customize its portion of the Fund's assets to achieve one or more investment outcomes for the Fund as a whole, such as to seek potential alpha enhancement, adherence to the Fund's investment objective and/or risk mitigation.

MFS

MFS generally focuses on investing the Fund's assets in the stocks of companies that it believes have above-average growth potential and that also are trading at reasonable valuations. MFS may invest the Fund's assets in the stocks of companies it believes to have above-average earnings growth potential compared to other companies (growth companies), in the stocks of companies it believes are undervalued compared to their perceived worth (value companies), or in a combination of growth and value companies.

MFS uses an active bottom-up investment approach to buying and selling investments for the Fund. Investments are selected primarily based on fundamental analysis of individual issuers and their potential in light of their financial condition, and market, economic, political, and regulatory conditions. Factors considered may include analysis of an issuer's earnings, cash flows,

competitive position, and management ability. Quantitative screening tools that systematically evaluate an issuer's valuation, price and earnings momentum, earnings quality, and other factors also may be considered.

MFS may sell securities for a variety of reasons, such as to secure gains, limit losses, or redeploy assets into opportunities believed to be more promising, among others.

TEMPORARY DEFENSIVE STRATEGY

The Fund may, from time to time, take temporary defensive positions that are inconsistent with the Fund's principal investment strategies in attempting to respond to adverse market, economic, political, or other conditions. The effect of taking such a temporary defensive position is that the Fund may not achieve its investment objective.

RISKS

Foreign Investing Risk: Foreign investing risk is the possibility that the value of the Fund's investments in foreign securities will decrease because of unique risks, such as currency exchange-rate fluctuations; foreign market illiquidity; emerging-market risk; increased price volatility; uncertain political conditions; exchange control regulations; foreign ownership limits; different accounting, reporting, and disclosure requirements; less publicly available information about foreign issuers; difficulties in obtaining legal judgments; and foreign withholding taxes. Foreign investing may result in the Fund experiencing more rapid and extreme changes in value than a fund that invests exclusively in securities of U.S. companies. Three risks that require additional consideration are:

- **Emerging-Markets Risk:** Investments in countries that are in the early stages of their industrial development involve exposure to economic structures that generally are less economically diverse and mature than those in the United States and to political systems that may be less stable. Investments in emerging markets may be subject to the risk of abrupt and severe price declines and their financial markets often lack liquidity. In addition, emerging-market countries may be more likely than developed countries to experience rapid and significant adverse developments in their political or economic structures. Emerging-market economies also may be overly reliant on particular industries, and more vulnerable to shifts in international trade, trade barriers, and other protectionist or retaliatory measures. Governments in many emerging-market countries participate to a significant degree in their economies and securities markets. Some emerging-market countries restrict foreign investments, impose high withholding or other taxes on foreign investments, impose restrictive exchange control regulations, or may nationalize or expropriate the assets of private

companies. Emerging-market countries also may be subject to high inflation and rapid currency devaluations and currency-hedging techniques may be unavailable in certain emerging-market countries.

- **Political Risk:** Political risk includes a greater potential for coups d'état, revolts, and expropriation by governmental organizations.
- **European Economic Risk:** In June 2016, the United Kingdom ("UK") approved a referendum to leave the European Union ("EU"), commonly referred to as "Brexit." On March 29, 2017, Prime Minister Theresa May provided formal notification of the UK's intention to withdraw from the EU pursuant to Article 50 of the Treaty of Lisbon. The effect on the economies of the UK and the EU will likely depend on the nature of trade relations between the UK and the EU and other major economies following Brexit, which are matters to be negotiated. The UK was scheduled to leave the EU on or before March 29, 2019; however, that deadline has been postponed until October 31, 2019. There is a substantial risk that the UK will separate from the EU without a formal agreement, which could be highly disruptive to the economies of both regions. The decision may cause increased volatility and have a significant adverse impact for some time on world financial markets, other international trade agreements, and the UK and European economies, as well as the broader global economy.

Impact of Activity by Other Shareholders: The Fund, like all mutual funds, pools the investments of many investors. Actions by one shareholder or multiple shareholders may have an impact on the Fund and, therefore, indirectly on other shareholders. For example, significant levels of new investments in the Fund by shareholders may cause the Fund to have more cash than would otherwise be the case, which might have a positive or negative impact on Fund performance. Similarly, redemption activity might cause the Fund to sell portfolio securities, which might generate a capital gain or loss, or cause it to borrow funds on a short-term basis to cover redemptions, which would cause the Fund to incur costs that, in effect, would be borne by all shareholders, not just the redeeming shareholders. Shareholder purchase and redemption activity also may affect the per share amount of the Fund's distributions of its net investment income and net realized capital gains, if any, thereby affecting the tax burden on the Fund's shareholders subject to federal income tax.

To the extent a larger shareholder (including, for example, a USAA fund-of-funds or 529 college savings plan) is permitted to invest in the Fund, the Fund may experience large inflows or outflows of cash from time to time. This could have adverse effects on the Fund's performance if the Fund were required to sell securities or invest cash at times when it otherwise would not do so. This activity also could accelerate the realization of capital gains and increase the Fund's transaction costs.

Geographic Concentration Risk: Because the Fund may invest a large percentage of its assets in issuers located in a single country, a small number of countries, or a particular geographic region, the Fund’s performance could be closely tied to the market, currency, economic, political, regulatory, geopolitical, or other conditions and developments in those countries or that region, and could be more volatile and risky than the performance of more geographically diversified funds.

Liquidity Risk: Certain securities held by the Fund may be difficult (or impossible) to sell at the time and at the price the Fund would like due to a variety of factors, including general market conditions, the perceived financial strength of the issuer, or specific restrictions on resale of the securities. Consequently, the Fund may have to hold these securities longer than it would like and may forgo other investment opportunities. It also is possible that the Fund could lose money or be prevented from realizing capital gains if it cannot sell a security at the time and price of the Manager’s choosing. Lack of liquidity may impact valuation of such securities and the Fund’s net asset value (NAV) adversely, especially during times of financial distress. In addition, the Fund may not be able to raise cash when needed or may be forced to sell other investments to raise cash, which could impact the Fund’s performance negatively. Infrequent trading of securities also may lead to an increase in price volatility. Liquidity is a general investment risk that potentially could impact any security, but funds that invest in privately placed securities, certain small-company securities, high-yield bonds, mortgage-backed or asset-backed securities, foreign or emerging market securities, derivatives, or other structured investments, which all have experienced periods of illiquidity, generally are subject to greater liquidity risk than funds that do not invest in these types of securities.

Management Risk: The Fund is subject to management risk, which is the possibility that the investment techniques and risk analyses used in managing the Fund’s portfolio will not produce the desired results. In addition, we operate under a “manager-of-managers” structure, which gives us the right, with the prior approval of the Board and without shareholder approval, to change subadviser(s). If we add or replace a subadviser to the Fund, the Fund could experience higher portfolio turnover and higher transaction costs than normal if the new subadviser realigns the portfolio to reflect its investment techniques and philosophy. A realignment of the Fund’s portfolio could result in higher capital gains and distributions, which could affect the tax efficiency of the Fund negatively.

Securities Lending Risk: The Fund may lend portfolio securities to broker-dealers or other institutions on a fully collateralized basis. There is a risk of delay in recovering a loaned security and/or risk of loss in collateral if the borrower becomes insolvent. There also is risk of loss if the borrower defaults and fails to return the loaned securities. The Fund could incur losses on the reinvestment of cash collateral from the loan, if the value of the

short-term investments acquired with the cash collateral is less than the amount of cash collateral required to be returned to the borrower.

Stock Market Risk: Because the Fund invests in stocks and other assets whose value is tied to stocks, it is subject to stock market risk. A company's stock price in general may decline over short or even extended periods of time, regardless of the success or failure of a company's operations. Stock markets tend to run in cycles, with periods when stock prices generally go up, and periods when stock prices generally go down. However, stock markets also can move up and down rapidly or unpredictably, based on overall economic conditions and other factors. Changes in the financial condition of a single issuer can impact a market as a whole.

Market turmoil may be reflected in perceptions of economic uncertainty, price volatility in the equity and debt markets, and fluctuating trading liquidity. In response, governments may adopt a variety of fiscal and monetary policy changes, including but not limited to, direct capital infusions into companies, new monetary programs, and lower interest rates. An unexpected or quick reversal of these policies could increase volatility in the equity and debt markets. Market conditions and economic risks could have a significant effect on domestic and international economies, and could add significantly to the risks of increased volatility for the Fund. Equity securities tend to be more volatile than debt securities. Issuers in an industry or sector can react similarly to market, economic, political, regulatory, geopolitical, or other conditions. If the Fund invests a significant percentage of its assets in issuers within an industry or sector, the Fund's performance will be affected by the conditions in that industry or sector.

- **Computer Systems Risk.** In addition, markets and market participants are increasingly reliant upon both publicly available and proprietary information data systems. Data imprecision, software or other technology malfunctions, programming inaccuracies, unauthorized use or access, and similar circumstances may impair the performance of these systems and may have an adverse impact upon a single issuer, a group of issuers, or the market at large. In certain cases, an exchange or market may close or issue trading halts on either specific securities or even the entire market, which may result in the Fund being, among other things, unable to buy or sell certain securities or financial instruments or accurately price its investments.

ADDITIONAL INFORMATION

This prospectus does not tell you about every policy or risk of investing in the Fund. For additional information about the Fund's investment policies and the types of securities in which the Fund's assets may be invested, you may request a copy of the Fund's statement of additional information ("SAI") (the back cover of this prospectus tells you how to do this).

PORTFOLIO HOLDINGS

A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio securities is available in the Fund's SAI, which is available upon request.

FUND MANAGEMENT

Effective July 1, 2019, Victory Capital Management Inc. (the "Adviser") serves as the investment adviser to the Fund pursuant to an investment advisory agreement. The Fund is one of 47 no-load mutual funds offered by USAA Mutual Funds Trust (the "Trust"). Prior to July 1, 2019, the Fund was managed by USAA Asset Management Company ("AMCO"), which the Adviser acquired as of that date. The Adviser oversees the operations of the Fund according to investment policies and procedures adopted by the Board. The Adviser is a New York corporation that is registered as an investment adviser with the Securities and Exchange Commission ("SEC"). As of August 31, 2019, the Adviser managed and advised assets totaling in excess of \$145 billion for individual and institutional clients. The Adviser's principal address is 4900 Tiedeman Road, 4th Floor, Brooklyn, Ohio 44144.

The Fund's Board has the overall responsibility for overseeing the management of the Fund. A discussion regarding the basis of the Board's approval of the Fund's Advisory and Subadvisory Agreement is available in the Fund's annual report to shareholders for the period ended May 31.

The Adviser is a multi-boutique asset manager comprised of multiple investment teams, referred to as investment franchises, each of which utilizes an independent approach to investment. The RS Investments Developed Markets investment franchise and its Victory Solutions platform are responsible for the day-to-day investment management of the Fund. As stated further below, the Adviser has also retained a subadviser to manage all or a portion of the Fund.

The Fund's investment management fee is comprised of a base investment management fee and a performance adjustment. The base investment management fee, which is accrued daily and paid monthly, is equal to an annualized rate of 0.75% of the Fund's average daily net assets.

The performance adjustment is calculated separately for each share class on a monthly basis and will be added to or subtracted from the base investment management fee depending upon the performance of the respective share class relative to the performance of the Lipper Global Funds Index over the performance period. The Lipper Global Funds Index tracks the total return performance of the funds within the Lipper Global Funds category. This category includes funds that invest at least 25% of their portfolio in securities traded outside of the United States and that may own U.S. securities as well. The performance period consists of the current month plus the previous 35

months (or the number of months beginning July 1, 2019, if fewer). The adjustment rate is determined as referenced in the following chart:

Over/Under Performance Relative to Index (in basis points)¹	Annual Adjustment Rate (in basis points as a percentage of the Fund's average daily net assets)¹
+/- 100 to 400	+/- 4
+/- 401 to 700	+/- 5
+/- 701 and greater	+/- 6

¹ Based on the difference between average annual performance of the relevant share class of the Fund and its relevant Lipper index, rounded to the nearest basis point. Average daily net assets of the relevant share class are calculated over a rolling 36-month period.

To determine the amount of the performance adjustment, the annual performance adjustment rate is multiplied by the average daily net assets of the Fund over the entire performance period, which then is multiplied by a fraction, the numerator of which is the number of days in the month and the denominator of which is 365 (366 in leap years). The resulting amount then is added to (in the case of overperformance) or subtracted from (in the case of underperformance) the base investment management fee.

Under the performance fee arrangement, the Fund will pay a positive performance fee adjustment for a performance period whenever the Fund outperforms the Lipper Global Funds Index over that period, even if the Fund had overall negative returns during the performance period.

For the fiscal year ended May 31, 2019, AMCO was paid the base investment management fee for each share class and the performance adjustment increased the base investment management fee of 0.75% by less than 0.01% for the Institutional Shares and did not affect the base investment management fee for Fund Shares or Adviser Shares.

Under the investment advisory agreement with the Adviser that took effect on July 1, 2019, no performance adjustments will be made for the period beginning July 1, 2019, through June 30, 2020. Only performance beginning as of July 1, 2019, and thereafter will be utilized in calculating future performance adjustments.

See “Fees and Expenses” in this Prospectus for information about any contractual agreement agreed to by the Adviser to waive fees and/or reimburse expenses with respect to the Fund. From time to time, the Adviser also may voluntarily waive fees and/or reimburse expenses in amounts exceeding those required to be waived or reimbursed under any contractual agreement that may be in place with respect to the Fund.

In addition to providing investment management services, the Adviser also provides administration and servicing to the Fund. Victory Capital Advisers, Inc. acts as the Fund's distributor, and Victory Capital Transfer Agency, Inc., (formerly, USAA Shareholder Account Services) provides transfer agency

services to the Fund. The Fund or the Fund's distributor or transfer agent may enter into agreements with third parties (Servicing Agents) to pay such Servicing Agents for certain administrative and servicing functions.

INVESTMENT SUBADVISER(S)

The Fund uses a "manager-of-managers" structure. We are authorized to select (with approval of the Board and without shareholder approval) one or more subadvisers to manage the day-to-day investment of the Fund's assets. We monitor each subadviser's performance through quantitative and qualitative analysis and periodically report to the Board as to whether a subadviser's agreement should be renewed, terminated, or modified. We also are responsible for determining how the Fund's assets should be allocated to the subadviser(s). The allocation for a subadviser can range from 0% to 100% of the Fund's assets, and we can change the allocations without shareholder approval.

The Adviser has entered into an Investment Subadvisory Agreement with MFS, under which MFS provides day-to-day discretionary management of the portion of the Fund's assets attributed to it in accordance with the Fund's investment objectives, policies, and restrictions, subject to the general supervision of the Board and the Adviser. MFS is compensated directly by the Adviser and not the Fund.

MFS, located at 111 Huntington Avenue, Boston, Massachusetts 02199, is a registered investment adviser and America's oldest mutual fund organization. MFS and its predecessor organizations have a history of money management dating from 1924 and the founding of the first mutual fund. MFS is a subsidiary of Sun Life of Canada (U.S.) Financial Services Holdings, Inc., which in turn is an indirect majority-owned subsidiary of Sun Life Financial Inc. (a diversified financial services company). As of June 30, 2019, net assets under the management of the MFS organization were approximately \$487 billion.

PORTFOLIO MANAGERS

RS Developed Markets

U-Wen Kok is the Chief Investment Officer of the RS Developed Markets team and has co-managed the Fund since July 2019. From 2013 to 2016, she was with RS Investment Management Co. LLC, which was acquired by Victory Capital in 2016. Before joining RS Investments in 2013, Ms. Kok served over fifteen years as a portfolio manager or portfolio management consultant at RBC Global Asset Management, BMO Asset Management, Barclays Global Investors and Ontario Teachers' Pension Plan Board. Ms. Kok is a CFA® charterholder.

Adam Mezan has been a member of the RS Developed Markets team since 2014 and has co-managed the Fund since July 2019. Prior to joining RS Investments in 2014, Mr. Mezan worked at Nomura Asset Management in London, covering global industrials and auto sectors. Previously, he worked at CIBC World Markets, performing fundamental research on North American business/industrial services companies. Mr. Mezan holds a B.A. from Duke University and an M.B.A. from the University of Chicago. Mr. Mezan is a CFA[®] charterholder.

Victory Solutions

Mannik S. Dhillon serves as President, VictoryShares and Solutions, for Victory Capital. From 2015-2017, he served as Victory Capital's Head of Investment Solutions, Product, and Strategy and has co-managed the Fund since July 2019. From 2010 to 2015, Mr. Dhillon served as a managing director and head of manager research with Wilshire Associates, where he evaluated asset managers and led strategic consulting engagements. Mr. Dhillon is a CFA[®] and CAIA[®] charterholder.

Wasif A. Latif, Head of Investments, VictoryShares and Solutions, has co-managed the Fund since July 2019. Mr. Latif has 20 years of investment management experience, 10 years of which have been with AMCO, which was acquired by the Adviser's parent company in 2019.

MFS

Ryan McAllister, Investment Officer and Portfolio Manager, has been employed in the investment area of MFS since 2007 and has managed the Fund since 2016.

Roger Morley, Investment Officer and Portfolio Manager, has been employed in the investment area of MFS since 2002 and has managed the Fund since 2009.

The SAI provides additional information about the portfolio managers' compensation, other accounts managed, and ownership of Fund securities.

CHANGE OF SUBADVISERS

We have received an exemptive order from the SEC that permits us, subject to certain conditions, including prior approval of the Board, to appoint and replace subadvisers, enter into subadvisory agreements, and amend subadvisory agreements on behalf of the Fund without shareholder approval. As a result, we can change the fee rate payable to a subadviser or appoint a new subadviser at a fee rate different than that paid to the current subadviser, which in turn may result in a different fee retained by Victory Capital. We will notify shareholders within 90 days after hiring any new subadviser for the Fund.

PURCHASES

OPENING AN ACCOUNT WITH THE FUND

You may purchase shares in an investment account or through certain financial intermediaries as described below. You may call toll free at (800) 235-8396, Monday through Friday, 7:30 a.m. to 8 p.m., and Saturday, 8 a.m. to 5 p.m., Central time, to inquire about opening an account with us. If you already have an account with us, you will not need to fill out another application to invest in another fund of the USAA Funds unless the registration is different or we need further information to verify your identity.

As required by federal law, we must obtain certain information from you prior to opening an account with us. If we are unable to verify your identity, we may refuse to open your account, or we may open your account and take certain actions without prior notice to you, including restricting account transactions pending verification of your identity. If we subsequently are unable to verify your identity, we may close your account and return to you the value of your shares at the next calculated NAV. We prohibit opening accounts for certain investors, including but not limited to, foreign financial institutions, shell banks, correspondent accounts for foreign shell banks, and correspondent accounts for foreign financial institutions. A “foreign shell bank” is a foreign bank without a physical presence in any country. A “correspondent account” is an account established for a foreign bank to receive deposits from, or to make payments or other disbursements on behalf of, the foreign bank, or to handle other financial transactions related to such foreign bank.

TAXPAYER IDENTIFICATION NUMBER

Each shareholder named on an account with us must provide a Social Security number or other taxpayer identification number to avoid “backup” tax withholding required by the Internal Revenue Code of 1986, as amended (the “Code”). See the section titled **Taxes** for additional tax information.

PURCHASING SHARES

Shares of the Fund are only available for sale in the United States and certain other areas subject to U.S. jurisdiction and may not be offered for sale in non-U.S. jurisdictions. Investors residing outside of the United States (except those with Air/Army Post Office (“APO”), Fleet Post Office (“FPO”), or Diplomatic Post Office (“DPO”) addresses) generally may not purchase shares of the Fund, even if they are U.S. citizens or lawful permanent residents.

Fund Shares:

The Fund Shares are a separate share class of the Fund and are not a separate mutual fund. Fund Shares are available through an investment account and through certain financial intermediaries, as described below. You may

purchase Fund Shares through your investment account on the Internet or by telephone; and if you have an account directly with the Fund, you also may purchase shares by mail.

Shares purchased through your investment account will be subject to applicable policies and procedures.

If Fund Shares are purchased through a retirement account or an investment professional (*i.e.*, a financial intermediary), the policies and procedures relating to these purchases may differ from those discussed in this prospectus. Additional fees also may apply to your investment in the Fund, including a transaction fee, if you buy or sell shares of the Fund through a broker or other investment professional. For more information on these fees, check with your investment professional.

Institutional Shares:

The Institutional Shares are a separate share class of the Fund and are not a separate mutual fund. The Institutional Shares are available for investment through a USAA discretionary managed account program, and through certain advisory programs sponsored by financial intermediaries, such as brokerage firms, investment advisors, financial planners, third-party administrators, and insurance companies. Institutional Shares also are available to institutional investors, which include retirement plans, endowments, foundations, and bank trusts, as well as an affiliated Fund participating in a fund-of-funds investment strategy, and other persons or legal entities that the Fund may approve from time to time.

Adviser Shares:

The Adviser Shares are a separate share class of the Fund and are not a separate mutual fund. The Adviser Shares are available for investment through financial intermediaries, including banks, broker-dealers, insurance companies, investment advisors, plan sponsors, and financial professionals that provide various administrative services.

ADDITIONAL INFORMATION REGARDING FINANCIAL INTERMEDIARIES

Your ability to purchase, exchange, redeem, and transfer shares will be affected by the policies of the financial intermediary through which you do business. Some policy differences may include: minimum investment requirements, exchange policies, fund choices, cutoff time for investments, and trading restrictions.

In addition, your financial intermediary may charge a transaction or other fee for the purchase or sale of shares of the Fund. Those charges are retained by the financial intermediary and are not shared with us. Please contact your financial intermediary or plan sponsor for a complete description of its policies.

Copies of the Fund’s annual report, semiannual report, and SAI are available from your financial intermediary or plan sponsor.

MINIMUM INITIAL PURCHASE

Fund Shares:

\$3,000. However, financial intermediaries may set different investment minimums, and the Fund reserves the right to waive or lower purchase minimums in certain circumstances.

Institutional Shares:

\$1 million. However, the Fund reserves the right to waive or lower purchase minimums in certain circumstances.

Adviser Shares:

\$3,000. However, financial intermediaries may set different investment minimums, and the Fund reserves the right to waive or lower purchase minimums in certain circumstances.

ADDITIONAL PURCHASES

Fund Shares:

\$50 minimum per transaction, per account.

Institutional Shares:

There is no subsequent purchase minimum for investments in Institutional Shares through any applicable discretionary managed account or similar investment program and/or certain USAA affiliated products.

Adviser Shares:

There is no subsequent purchase minimum for investments in Adviser Shares, but financial intermediaries may require their clients to meet different subsequent purchase requirements.

EFFECTIVE DATE OF PURCHASE

When you make a purchase, your purchase price will be the NAV per share next calculated after we or the financial intermediary receive your request in “proper form” as provided in the section titled **Important Transaction Information**. The Fund’s NAV per share is calculated as of the close of the regular trading session (generally 4 p.m. Eastern time) of the New York Stock Exchange (“NYSE”) each day it is open for trading. If we or the financial intermediary receive your purchase request in proper form prior to that time, your purchase price will be the NAV per share calculated for that day. If we or the financial intermediary receive your purchase request in proper form after that time, the purchase price will be the NAV per share calculated as of the close of the next regular trading session of the NYSE.

The Fund or the Fund's distributor or transfer agent may enter into agreements with Servicing Agents (such as financial intermediaries or plan sponsors), which hold shares of the Fund in omnibus accounts for their customers, under which the Servicing Agents are authorized to receive orders for shares of the Fund on the Fund's behalf. Under these arrangements, the Fund will be deemed to have received an order when an authorized Servicing Agent receives the order. Accordingly, customer orders will be priced at the Fund's NAV per share next calculated after they are received by an authorized Servicing Agent even though the orders may be transmitted to the Fund by the Servicing Agent after the time the Fund calculates its NAV.

PAYMENT

If you hold an account directly with the Fund and you plan to purchase shares from us with a check, the instrument must be written in U.S. dollars and drawn on a U.S. bank. In addition, initial purchases into an account by electronic funds transfer or check may be held for up to 30 days before any redemptions may be processed. We do not accept the following foreign instruments: checks, money orders, traveler's checks, or other similar instruments. In addition, we do not accept cash or coins. If you plan to purchase shares through a financial intermediary, please check with that financial intermediary regarding acceptable forms of payment.

REDEMPTIONS

For federal income tax purposes, a redemption of shares of the Fund is a taxable event, upon which you may recognize a capital gain or loss (unless you hold the shares of the Fund in a tax-deferred account or are a tax-exempt investor). A capital gain or loss is based on the difference between your basis in the redeemed shares and the proceeds you receive upon their redemption. See the section titled **Taxes** for information regarding basis election and reporting.

The Fund may elect to suspend the redemption of shares or postpone the date of payment in limited circumstances (*e.g.*, if the NYSE is closed or when permitted by order of the SEC).

Under normal market conditions, the Fund typically expects to meet redemption requests by paying out proceeds from cash or cash equivalent portfolio holdings, or by selling portfolio holdings. Under deteriorating market conditions or market stress, the Fund also may borrow from a line of credit to which the Fund and certain other affiliated Funds are parties. The Fund and the other affiliated Funds are limited as to the amount that each may individually and collectively borrow under the line of credit. As a result, borrowings available to the Fund may be insufficient to satisfy Fund redemption requests. In addition, the Fund reserves the right to honor redemption orders wholly or partly with in-kind distributions of Fund portfolio securities instead of cash.

REDEEMING SHARES

Fund Shares:

You may redeem Fund Shares through your investment account on the Internet or by telephone on any day the NAV per share is calculated. If you have a direct account with the Fund, you also may redeem shares by mail. Shareholders will receive a redemption price of the NAV per share next calculated after we receive your request in “proper form” as provided in the section titled **Important Transaction Information**. If we receive your redemption request in proper form prior to the close of the NYSE’s regular trading session (generally 4 p.m. Eastern time), your redemption price will be the NAV per share calculated for that day. If we receive the redemption request after that time, the redemption price will be the NAV per share calculated as of the close of the next regular trading session of the NYSE. Shares redeemed through your investment account will be subject to applicable policies and procedures.

The Fund has undertaken certain authentication procedures regarding telephone transactions and will employ reasonable procedures to confirm that instructions communicated by telephone are genuine. Before any discussion regarding your account, we will obtain certain information from you to verify your identity. Additionally, your telephone calls may be recorded or monitored, and confirmations of account transactions are sent to the address of record or by electronic delivery to your designated e-mail address.

If you hold Fund Shares through an investment account or an account directly with the Fund, the Fund typically expects to pay out redemption proceeds on the next business day after your order is received in proper form; however, it may take up to seven days to send your proceeds. Payment for redemption of shares purchased by electronic funds transfer (“EFT”) or check will be sent after the EFT or check has cleared, which could take up to 30 days from the initial purchase date into a Fund and, for any subsequent purchases into a Fund, seven days from the purchase date.

If you hold Fund Shares in your account with a financial intermediary, please contact your financial intermediary regarding redemption policies. Generally, any redemption request you place with your financial intermediary in proper form prior to the close of the NYSE (generally 4 p.m. Eastern time) will receive the NAV per share calculated for that day, subject to the financial intermediary’s applicable policies and procedures. Normally, the Fund transmits proceeds to intermediaries for redemption orders that are received in proper form on the next business day after receipt. Under certain circumstances and when deemed to be in the Fund’s best interests, proceeds may not be sent to intermediaries for up to seven days after receipt of the redemption order.

Institutional Shares:

Institutional Shares will receive a redemption price of the NAV per share next calculated after we receive the redemption request in “proper form” as provided in the section titled **Important Transaction Information**. If we receive the redemption request in proper form prior to the close of the NYSE’s regular trading session (generally 4 p.m. Eastern time), the redemption price will be the NAV per share calculated for that day. If we receive the redemption request after that time, the redemption price will be the NAV per share calculated as of the close of the next regular trading session of the NYSE. The Fund typically expects to pay out redemption proceeds on the next business day after your order is received in proper form; however, it may take up to seven days to send your proceeds.

Adviser Shares:

Check with your financial intermediary for its policies on redemptions. Adviser Shares purchased through a financial intermediary should be redeemed through the financial intermediary. The Fund typically expects to transmit proceeds to intermediaries for redemption orders on the next business day after receipt in “proper form” as provided in the section titled **Important Transaction Information**. Under certain circumstances and when deemed to be in the Fund’s best interests, proceeds may not be sent to intermediaries for up to seven days after receipt of the redemption order.

CONVERTING SHARES

CONVERTING FROM INSTITUTIONAL SHARES TO FUND SHARES

If you no longer meet the eligibility requirements to invest in Institutional Shares (*e.g.*, you terminate participation in a USAA discretionary management account program), we may convert your Institutional Shares to Fund Shares. The Fund will notify you before any such conversion to Fund Shares occurs.

CONVERTING FROM ADVISER SHARES TO FUND SHARES OR INSTITUTIONAL SHARES

If you hold Adviser Shares through an account maintained with another financial institution and subsequently transfer your shares into (i) an account established directly with the Fund, (ii) your investment account, or (iii) an eligible advisory program with a financial intermediary, we may convert your Adviser Shares to Fund Shares or Institutional Shares, as applicable.

OTHER CONVERSIONS

The Fund also may provide for other conversion privileges from time to time under which a shareholder of the Fund may convert shares into another class of shares of the same Fund under certain circumstances, subject to approval by the Fund’s officers. For example, subject to approval by the Fund’s

officers, a shareholder may convert shares of one class of the Fund held through an eligible advisory program into shares of another class of the Fund (if available) with a lower expense ratio, provided that following the conversion the shareholder meets applicable eligibility requirements for the class into which the shareholder seeks to convert (as described in this prospectus).

PRICING

When a conversion occurs, you receive shares of one class of a fund for shares of another class of the same fund. At the time of conversion, the dollar value of the “new” shares you receive equals the dollar value of the “old” shares that were converted. In other words, the conversion has no effect on the value of your investment in the fund at the time of the conversion. However, the number of shares you own after the conversion may be greater than or less than the number of shares you owned before the conversion, depending on the NAVs per share of the two share classes. A conversion between share classes of the same fund is a non-taxable event.

Conversions are not subject to the Fund’s restrictions on short-term trading activity discussed under the section titled **Excessive Short-Term Trading** in this prospectus.

EXCHANGES

For federal income tax purposes, an exchange between funds is a taxable event, upon which you may recognize a capital gain or loss (unless you hold the shares of the Fund in a tax-deferred account or are a tax-exempt investor). Such a gain or loss is based on the difference, if any, between your basis in the exchanged shares and the aggregate NAV of the shares you receive in the exchange. See the section titled **Taxes** for information regarding basis election and reporting.

EXCHANGE PRIVILEGE

You may exchange shares between funds in the USAA family of funds, provided the shares to be acquired are offered in your state of residence. The Fund, however, reserves the right to terminate or change the terms of an exchange offer.

If you have opened an account directly with the Fund, you may make exchanges on **usaa.com**. If you have an investment account, you may make exchanges on **usaa.com** or on **mobile.usaa.com**. After we receive the exchange orders, the Fund’s transfer agent will simultaneously process exchange redemptions and purchases at the share prices next calculated pursuant to the procedures set forth herein. See the section titled **Effective Date of Purchase** for additional information. The investment minimums applicable to share purchases also apply to exchanges.

If you hold shares of the Fund in an account with a financial intermediary or plan sponsor, the policies and procedures on an exchange may differ from those discussed in this prospectus. Additional fees also may apply to your investment in the Fund, including a transaction fee, if you buy, sell, or exchange shares of the Fund through a broker or other investment professional. For more information on these fees, check with your investment professional.

OTHER IMPORTANT INFORMATION ABOUT PURCHASES, REDEMPTIONS, AND EXCHANGES

Contacting the USAA Funds

The following features may be available to you to purchase, redeem, and exchange shares of the Fund you hold in an investment account or in an account opened directly with the Fund.

Internet Access

- Review account information and make most account transactions. This includes making purchases, exchanges, and redemptions; reviewing account activity; checking balances; and more.

Mobile Access

- Review account information and make most account transactions.

Telephone System (800) 235-8396

- Access account information and make most account transactions.

Telephone

- Call toll free (800) 235-8396 Monday – Friday, 7:30 a.m. to 8 p.m. and Saturday, 8 a.m. to 5 p.m., Central time, to speak with a member service representative.

Mail

- If you hold an account directly with the Fund and would like to make a purchase or request a redemption by mail, send your written instructions to:

Regular Mail:

P.O. Box 659453
San Antonio, TX 78265-9825

Registered or Express Mail:

9800 Fredericksburg Road
San Antonio, TX 78240

Bank Wire

- To add to your account or request a redemption by bank wire, visit the **usaa.com** website or call (800) 235-8396 for instructions. This helps to ensure that your account will be credited or debited promptly and correctly.

Electronic Funds Transfer

- Additional purchases on a regular basis may be deducted electronically from a bank account. Sign up for these services when opening an account, log on to **usaa.com** or call (800) 235-8396 for assistance.

IMPORTANT TRANSACTION INFORMATION

Purchase, redemption, and exchange requests are not processed until received in proper form. “Proper form” means actual receipt of the order along with all information and supporting documentation necessary to effect the transaction. Complete information may include any verification or confirmation of identity that the Fund’s transfer agent or other authorized Fund agent may request. For purchase requests, “proper form” also generally includes receipt of sufficient funds to effect the purchase. The Fund, its transfer agent, or any authorized Fund agent may, in its sole discretion, determine whether any particular transaction request is in good order and reserve the right to change or waive any good order requirement at any time. Financial intermediaries may have their own requirements for recognizing a transaction in proper form or good order. If you hold your shares through a financial intermediary, please contact them for specific proper form or good order requirements.

IRA DISTRIBUTION FEE

The Fund may apply a distribution fee to all full IRA distributions, except for those due to death, disability, or divorce. Partial IRA distributions are not charged a distribution fee.

ACCOUNT BALANCE

Victory Capital Transfer Agency, Inc. may assess annually a small balance account fee of \$12 to each shareholder account with a balance of less than \$2,000 at the time of assessment. Accounts exempt from the fee include: (1) any account regularly purchasing additional shares each month through an automatic investment plan; (2) any UGMA/UTMA account; (3) all (non-IRA) money market fund accounts; and (4) any account whose registered owner has an aggregate balance of \$50,000 or more invested in affiliated Funds; and (5)

all IRAs (for the first year the account is open). The fee is not currently being assessed. The Fund will provide advance notice in the event it is assessed in the future.

EXCESSIVE SHORT-TERM TRADING

The affiliated Funds generally are not intended as short-term investment vehicles (except for the money market funds, Short-Term Bond Fund, Ultra Short-Term Bond Fund, and Tax Exempt Short-Term Fund). Some investors try to profit by using excessive short-term trading practices involving mutual fund shares, frequently referred to as “market timing.”

Excessive short-term trading activity can disrupt the efficient management of a fund and raise its transaction costs by forcing portfolio managers to first buy and then sell portfolio securities in response to a large investment or redemption by short-term traders. While there is no assurance that the affiliated Funds can deter all excessive and short-term trading, the Board has adopted the following policies (except for the money market funds, Short-Term Bond Fund, Ultra Short-Term Bond Fund, and Tax Exempt Short-Term Fund). These policies are designed to deter disruptive, excessive short-term trading without needlessly penalizing bona fide investors.

To deter such trading activities, the affiliated Funds’ policies and procedures state that:

- Each affiliated Fund reserves the right to reject any purchase order, including an exchange, that it regards as disruptive to the efficient management of the particular fund.
- Each affiliated Fund may use a fair value pricing service or other model to assist in establishing the current value of foreign securities held by the affiliated Fund. Fair value pricing is used to adjust for “stale pricing” that may occur between the close of certain foreign exchanges or markets and the time when the affiliated Fund calculates its NAV per share. The use of fair value pricing is intended to deter investors who may be trying to take advantage of time-zone differences in the valuation of foreign securities and to prevent dilution to long-term investors. Fair value pricing of a foreign security can result in an affiliated Fund using a price that is higher or lower than the closing price of a foreign security for purposes of calculating an affiliated Fund’s NAV.

THE AFFILIATED FUNDS’ RIGHT TO REJECT PURCHASE AND EXCHANGE ORDERS AND LIMIT TRADING IN ACCOUNTS

The affiliated Funds’ main safeguard against excessive short-term trading is their right to reject purchase or exchange orders if in the best interest of the affected fund. In exercising this discretion to reject purchase and exchange orders, the affiliated Funds deem that certain excessive short-term trading activities are not in the best interest of the fund because such activities can

hamper the efficient management of the fund. Generally, persons who engage in an “in and out” (or “out and in”) transaction within a 30-day period will violate the affiliated Funds’ policy if they engage in another “in and out” (or “out and in”) transaction in the same fund within 90 days. The affiliated Funds also reserve the right to restrict future purchases or exchanges if an investor is classified as engaged in other patterns of excessive short-term trading, including after one large disruptive purchase and redemption or exchange. Finally, the affiliated Funds reserve the right to reject any other purchase or exchange order in other situations that do not involve excessive short-term trading activities if in the best interest of a fund.

The following transactions are exempt from the excessive short-term trading activity policies described above:

- Transactions in the money market funds, Short-Term Bond Fund, Ultra Short-Term Bond Fund, and Tax Exempt Short-Term Fund;
- Purchases and sales pursuant to automatic investment or withdrawal plans;
- Purchases and sales made through USAA Managed Portfolios-UMP[®], USAA 529 College Savings Plan[™], USAA Federal Savings Bank Trust Department, or other designated USAA managed investment accounts;
- Purchases and sales by the Target Retirement Funds, Cornerstone Conservative Fund, and/or Cornerstone Equity Fund; and
- Other transactions that are not motivated by short-term trading considerations if they are approved by transfer agent management personnel and are not disruptive to a fund.

If a person is classified as having engaged in excessive short-term trading, the remedy will depend upon the trading activities of the investor in the account and related accounts and its disruptive effect, and can include warnings to cease such activity and/or restrictions or termination of trading privileges in a particular affiliated Fund or all of the affiliated Funds.

The affiliated Funds rely on the transfer agent to review trading activity for excessive short-term trading. There can be no assurance, however, that its monitoring activities will successfully detect or prevent all excessive short-term trading. The affiliated Funds or the transfer agent may exclude transactions below a certain dollar amount from monitoring and may change that dollar amount from time to time.

The affiliated Funds seek to apply these policies and procedures uniformly to all investors; however, some investors purchase shares of an affiliated Fund through financial intermediaries that establish omnibus accounts to invest in the affiliated Funds for their clients and submit net orders to purchase or redeem shares after combining their client orders. The affiliated Funds subject to the short-term trading policies generally treat these omnibus accounts as an individual investor and will apply the short-term trading policies to the net

purchases and sales submitted by the omnibus account unless the affiliated Funds or their transfer agent have entered into an agreement requiring the omnibus account to submit the underlying trading information for their clients upon our request and/or monitor for excessive trading. For those omnibus accounts for which we have entered into agreements to monitor excessive trading or provide underlying trade information, the financial intermediary or affiliated Funds will review net activity in these omnibus accounts for activity that indicates potential, excessive short-term trading activity. If we detect suspicious trading activity at the omnibus account level, we will request underlying trading information and review the underlying trading activity to identify individual accounts engaged in excessive short-term trading activity. We will instruct the omnibus account to restrict, limit, or terminate trading privileges in a particular fund for individual accounts identified as engaging in excessive short-term trading through these omnibus accounts.

We also may rely on the financial intermediary to review for and identify underlying trading activity for individual accounts engaged in excessive short-term trading activity, and to restrict, limit, or terminate trading privileges if the financial intermediary's policies are determined by us to be at least as stringent as the affiliated Funds' policy. For shares purchased through financial intermediaries there may be additional or more restrictive policies. You may wish to contact your financial intermediary to determine the policies applicable to your account.

Because of the increased costs to review underlying trading information, the affiliated Funds will not enter into agreements with every financial intermediary that operates an omnibus account. The affiliated Funds or their transfer agent could decide to enter into such contracts with financial intermediaries for all funds or particular funds and can terminate such agreements at any time.

OTHER FUND RIGHTS

The Fund reserves the right to:

- Reject or restrict purchase or exchange orders when in the best interest of the Fund;
- Limit or discontinue the offering of shares of the Fund without notice to the shareholders;
- Calculate the NAV per share and accept purchase, exchange, and redemption orders on a business day that the NYSE is closed;
- Redeem some or all of its shares in kind when in the best interest of the Fund;
- Require a signature guarantee for transactions or changes in account information in those instances where the appropriateness of a signature authorization is in question (the SAI contains information on acceptable guarantors);

- Redeem an account with less than \$500, with certain limitations;
- Restrict or liquidate an account when necessary or appropriate to comply with federal law; and
- Discontinue or otherwise limit the opening of accounts with us.

MULTIPLE CLASS INFORMATION

The Fund is comprised of multiple classes of shares. Each class shares the Fund's investment objective and investment portfolio. The classes have different fees, expenses, and/or minimum investment requirements. The difference in the fee structures between the classes is primarily the result of their separate arrangements for shareholder and distribution services and performance fee arrangements. It is not the result of any difference in base investment management or custodial fee rate schedules or other expenses related to the management of the Fund's assets, which do not vary by class.

Except as described below, the share classes have identical voting, dividend, liquidation, and other rights, preferences, terms, and conditions. The primary differences between the classes are: (a) each class may be subject to different expenses specific to that class; (b) each class has a different identifying designation or name; (c) each class has exclusive voting rights with respect to matters solely affecting that class; and (d) each class may have different purchase, exchange, and redemption privileges.

DISTRIBUTION AND SERVICE FEES

The Fund has adopted a distribution plan pursuant to Rule 12b-1 ("Rule 12b-1 Plan") under the Investment Company Act of 1940, as amended, with respect to Adviser Shares. Under the Rule 12b-1 Plan, the Fund pays annual fees of 0.25% of the Fund's average daily net assets attributable to the Adviser Shares to the distributor, or such other entities as the Fund's Board may approve (the "Payee"), as compensation for rendering services and bearing expenses in connection with activities primarily intended to result in the sale of Adviser Shares and/or providing services to shareholders of Adviser Shares. Under the Rule 12b-1 Plan, such fees may cover expenses incurred by the Payee in connection with the distribution and/or servicing of Adviser Shares of the Fund and relating (among other things) to:

- compensation to the Payee and its employees;
- payment of the Payee's expenses, including overhead and communication expenses;
- compensation to broker-dealers, financial intermediaries, and other entities to pay or reimburse them for their services or expenses in connection with the distribution of Adviser Shares;

- printing and mailing of prospectuses, SAIs, and reports for prospective shareholders;
- the preparation and distribution of sales literature and advertising materials;
- responding to inquiries from shareholders or their financial representatives requesting information regarding the affiliated Funds; and
- responding to inquiries by and correspondence from shareholders regarding ownership of their shares or their accounts.

The distributor pays all or a portion of such fees to financial intermediaries that make the Adviser Shares available for investment by their customers and the distributor may retain part of this fee as compensation for providing these services. If the fees received by the distributor under the Rule 12b-1 Plan exceed its expenses, the distributor may realize a profit from these arrangements. Because these fees are paid out of the Fund's assets on an ongoing basis, over time these fees will increase the cost of your investment in the Adviser Shares and may cost you more than paying other types of sales charges. In addition, because some or all of the fees payable pursuant to the Rule 12b-1 Plan may be used to pay for shareholder services that are not related to prospective sales of the Fund's shares, the Adviser Shares may continue to make payments under the Rule 12b-1 Plan even if the Fund terminates the sale of Adviser Shares to investors. For additional information about the Rule 12b-1 Plan and its terms, see **Multiple Class Information** in the SAI.

SHAREHOLDER INFORMATION

PAYMENTS TO FINANCIAL INTERMEDIARIES

Certain financial intermediaries perform recordkeeping, networking, administrative, sub-transfer agency, and shareholder services for their clients with respect to their investments in the Fund that otherwise would be performed by the Fund's transfer agent or administrator and shareholder servicing agent. In some circumstances, we, or one of our affiliates, will pay a financial intermediary for these services out of our own resources. In other circumstances, the Fund will pay a fee to the financial intermediary for performing those services. The Fund will not pay financial intermediaries more than it would pay its direct service providers for transfer agency, administration, and/or shareholder services. In cases where intermediary fees are higher due to differences in the services being provided or other factors, the additional amounts will be paid by us and/or the distributor. In addition, these payments generally are based on either (1) a percentage of the average daily net assets of Fund shareholders' accounts serviced by a financial

intermediary or (2) a fixed dollar amount for each account serviced by a financial intermediary. The aggregate amount of these payments may be substantial.

In addition, we and the Fund's distributor may make payments to intermediaries for various additional services, other expenses, and/or the financial intermediaries' distribution of shares of the Fund. Such payments are sometimes referred to as "revenue sharing" and generally are negotiated with a financial intermediary on the basis of such factors as the number or value of shares of the Fund that the financial intermediary sells or may sell; the value of client assets invested; or the type and nature of services or support furnished by the financial intermediary. Such revenue sharing payments are intended to compensate a financial intermediary for one or more of the following: (1) distribution, which may include expenses incurred by financial intermediaries for their sales activities with respect to the Fund, such as preparing, printing, and distributing sales literature and advertising materials and compensating registered representatives or other employees of such financial intermediaries for their sales activities, as well as the opportunity for the Fund to be made available by such financial intermediaries; (2) shareholder services, such as providing individual and custom investment advisory services to clients of the financial intermediaries; and (3) marketing and promotional services, including business planning assistance, educating personnel about the Fund, including the Fund on preferred or recommended lists or in certain sales programs sponsored by the intermediary, and sponsorship of sales meetings, which may include covering costs of providing speakers. The distributor may sponsor seminars and conferences designed to educate financial intermediaries about the Fund and may cover the expenses associated with attendance at such meetings, including travel costs. These payments and activities are intended to educate financial intermediaries about the Fund and may help defray or compensate the financial intermediary for the costs associated with offering the Fund.

The payments also may, to the extent permitted by applicable regulations, contribute to various non-cash and cash incentive arrangements to promote the sale of shares of the Fund, as well as sponsor various educational programs, sales contests and/or promotions. We and the Fund's distributor may, from time to time, provide occasional gifts, meals, tickets or other entertainment, or support for due diligence trips. These payments are in addition to any fees paid by the Fund to compensate financial intermediaries for providing distribution-related services to the Fund and/or shareholder services to Fund shareholders. These payments may be a fixed dollar amount or may be based on a percentage of the value of shares sold to, or held by, customers of the financial intermediary involved. The amount of these payments may be substantial and may differ among financial intermediaries. In addition, certain financial intermediaries may have access to certain services from us or the distributor, including research reports and economic analysis, and portfolio analysis tools. In certain cases, the financial intermediary may not pay for these services. These payments and other arrangements may create a conflict

of interest by influencing the financial intermediary to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information. The amount of any payments described by this paragraph is determined by us or the distributor, and all such amounts are paid out of our available assets or the assets of the distributor and do not directly affect the total expense ratio of the Fund.

SHARE PRICE CALCULATION

The price at which you purchase and redeem shares of the Fund is equal to the NAV per share calculated on the effective date of the purchase or redemption. The NAV per share is calculated by adding the value of the Fund's assets (*i.e.*, the value of its investments and other assets), deducting liabilities, and dividing by the number of shares outstanding. Shares of the Fund may be purchased and sold at the NAV per share without a sales charge. The Fund's NAV per share is calculated as of the close of the NYSE (generally 4 p.m. Eastern time) each day that the NYSE is open for regular trading. The NYSE is closed on most national holidays and Good Friday.

VALUATION OF SECURITIES

The Board has established a Valuation and Liquidity Committee (the "Committee"); and subject to Board oversight and approval, the Committee administers and oversees the Fund's valuation policies and procedures. Among other things, these policies and procedures allow the Fund to utilize independent pricing services, quotations from securities dealers, and a wide variety of sources and information to establish and adjust the fair value of securities as events occur and circumstances warrant.

Equity securities, including ETFs, except as otherwise noted, traded primarily on domestic securities exchanges or the over-the-counter markets, are valued at the last sale price or official closing price on the exchange or primary market on which they trade. Equity securities traded primarily on foreign securities exchanges or markets are valued at the last quoted sale price, or the most recently determined official closing price calculated according to local market convention, available at the time the Fund is valued. If no last sale or official closing price is reported or available, the closing bid price generally is used for U.S.-listed equities and the average of the bid and ask prices generally is used for foreign listed equities.

Equity securities trading in various foreign markets may take place on days when the NYSE is closed. Further, when the NYSE is open, the foreign markets may be closed. Therefore, the calculation of the Fund's NAV may not take place at the same time the prices of certain foreign securities held by the Fund are determined. In many cases, events affecting the values of foreign securities that occur between the time of their last quoted sale or official closing price and the close of normal trading on the NYSE on a day the Fund's NAV is calculated will not need to be reflected in the value of the Fund's foreign securities. However, we and the subadviser(s) will monitor for

events that would materially affect the value of the Fund's foreign securities. The subadviser(s) have agreed to notify us of significant events they identify that may materially affect the value of the Fund's foreign securities. If we determine that a particular event would materially affect the value of the Fund's foreign securities, then the Committee will consider such available information that we deem relevant and will determine a fair value for the affected foreign securities in accordance with valuation procedures. In addition, information from an external vendor or other sources may be used to adjust the foreign market closing prices of foreign equity securities to reflect what the Committee believes to be the fair value of the securities as of the close of the NYSE. Fair valuation of affected foreign equity securities may occur frequently based on an assessment that events which occur on a fairly regular basis (such as U.S. market movements) are significant.

Debt securities are valued each business day by a pricing service (the "Service") approved by the Board.

Short-term debt securities with original or remaining maturities of 60 days or less may be valued at amortized cost, provided that amortized cost represents the fair value of such securities.

Repurchase agreements are valued at cost.

Investments in open-end investment companies, commingled, or other funds, other than ETFs, are valued at their NAV at the end of each business day.

Futures contracts are valued at the settlement price at the close of market on the principal exchange on which they are traded or, in the absence of any transactions that day, the values are based upon the settlement price on the prior trading date.

Options contracts are valued at the mean between the last bid and ask prices. Options on futures are valued at the settlement price determined by the applicable exchange.

In the event that price quotations or valuations are not readily available, are not reflective of market value, or a significant event has been recognized in relation to a security or class of securities, the securities are valued in good faith, at fair value, by the Committee in accordance with valuation procedures approved by the Board. The effect of fair value pricing is that securities may not be priced on the basis of quotations from the primary market in which they are traded, and the actual price realized from the sale of a security may differ materially from the fair value price. Valuing these securities at fair value is intended to cause the Fund's NAV to be more reliable than it otherwise would be.

Fair value methods used by the Fund include, but are not limited to, obtaining market quotations from secondary pricing services, broker-dealers, other pricing services, or widely used quotation systems. General factors considered in determining the fair value of securities include fundamental analytical data, the nature and duration of any restrictions on disposition of the securities,

evaluation of credit quality, and an evaluation of the forces that influenced the market in which the securities are purchased and sold.

For additional information on how securities are valued, see **Valuation of Securities** in the Fund's SAI.

DIVIDENDS AND OTHER DISTRIBUTIONS

The Fund pays distributions of net investment income (“dividends”) annually. Ordinarily, any net realized capital gains are distributed in December of each year. The Fund may make additional distributions to shareholders, or may not make a distribution, when considered appropriate or necessary. For example, the Fund could make one or more additional distributions to avoid the imposition of any federal income or excise taxes or may not make a distribution to limit returns of capital.

The Fund automatically reinvests all dividends and other distributions paid on a share class in additional shares of that class unless you request to receive those distributions by way of electronic funds transfer. The share price for a reinvestment is the NAV per share of the class computed on the ex-distribution date. Any distribution made by the Fund reduces the NAV per share of the class by the amount of the distribution on the ex-distribution date. You should consider carefully the effects of purchasing shares of the Fund shortly before any distribution (as explained below). The Fund will invest in your account, at the current NAV per share, any distribution payment returned to the Fund by your financial institution.

TAXES

The following tax information is quite general and refers to the federal income tax law in effect as of the date of this prospectus.

■ Treatment of the Fund

The Fund, which is treated as a separate corporation for federal tax purposes, has qualified for each past taxable year, and intends to continue to qualify, for treatment as a “regulated investment company” under the Code. By doing so, the Fund (but not its shareholders) is relieved of federal income tax on the part of its investment company taxable income (consisting generally of taxable net investment income, the excess, if any, of net short-term capital gain over net long-term capital loss (“net short-term gain”), and net gains and losses from certain foreign currency transactions, if any, all determined without regard to any deduction for dividends paid) and net capital gain (*i.e.*, the excess of net long-term capital gain over net short-term capital loss), if any, that it distributes to its shareholders.

■ Shareholder Taxation

Distributions that shareholders receive from the Fund generally are subject to federal income tax and may be subject to state and/or local taxes. Dividends and distributions of net short-term gains are taxable to you as ordinary income, whether received in cash or reinvested in additional shares of the Fund. A portion of the Fund's dividends (which is not expected to be substantial) may qualify for (1) the 50% dividends-received deduction available to corporations, and (2) the lower maximum federal income tax rates applicable to "qualified dividend income" of individuals and certain other non-corporate shareholders (each, an "individual shareholder") who satisfy certain holding period and other restrictions with respect to their shares of the Fund—a maximum of 15% for a single shareholder with taxable income not exceeding \$434,550 (\$488,850 for married shareholders filing jointly) and 20% for those individual shareholders with taxable income exceeding those respective amounts (which are effective for 2019 and will be adjusted for inflation annually thereafter).

Regardless of the length of time you have held shares of the Fund, distributions of net capital gains that the Fund realizes are taxable to you as long-term capital gains, whether received in cash or reinvested in additional shares of the Fund. Those distributions are taxed to individual shareholders at the 15% and 20% tax rates described above.

You may realize a capital gain or loss for federal income tax purposes on a redemption or an exchange (which is treated like a redemption for those purposes) of shares of the Fund. Your gain or loss is based on the difference, if any, between your basis in the redeemed (or exchanged) shares and the redemption proceeds (or the aggregate NAV of the shares of the fund into which you exchange) you receive. Any capital gain an individual shareholder recognizes on a redemption or exchange of his or her shares of the Fund that have been held for more than one year will qualify for the 15% and 20% tax rates described above.

In addition, an individual shareholder is subject to a 3.8% federal tax on the lesser of (1) the individual's "net investment income," which generally includes taxable distributions the Fund pays and net gains realized on the redemption or exchange of shares of the Fund, or (2) the excess of his or her "modified adjusted gross income" over \$200,000 (or \$250,000 if married and filing jointly). This tax is in addition to any other taxes due on that income. You should consult your tax adviser regarding the effect, if any, this provision may have on your investment in shares of the Fund.

Your basis in shares of the Fund that you acquired after December 31, 2011, ("Covered Shares") will be determined in accordance with the Fund's default method, which is average basis, unless you affirmatively elect in writing (which may be electronic) to use a different acceptable basis determination method, such as a specific identification method. The basis determination method you elect (or the default method) may not be changed with respect to

a redemption of Covered Shares after the settlement date of the redemption. You should consult with your tax adviser to determine the best IRS-accepted basis determination method.

■ Foreign Taxes

Dividends and interest the Fund receives, and gains it realizes, on foreign securities may be subject to income, withholding, or other taxes foreign countries and U.S. possessions impose (“foreign taxes”) that would reduce the yield and/or total return on its investments. Tax conventions between certain countries and the United States may reduce or eliminate foreign taxes; however, many foreign countries do not impose taxes on capital gains with respect to investments by foreign investors.

If more than 50% of the value of the Fund’s total assets at the close of any taxable year consists of securities of foreign corporations, the Fund may file an election with the IRS (“Foreign Election”) that would permit you to take a credit (or a deduction) for foreign taxes the Fund pays. If the Foreign Election is made, you would include in your gross income both dividends you received from the Fund and the amount of your proportionate share of those foreign taxes and would be entitled to a credit against your federal income tax, subject to the limitations set forth in the Code with respect to the foreign tax credit generally. Alternatively, you could, if it were to your advantage, treat the foreign taxes paid by the Fund as an itemized deduction in computing your taxable income rather than as a tax credit. The Fund has made the Foreign Election in one or more previous taxable years, and it is anticipated that certain affiliated Funds will make the Foreign Election for their current taxable year. If the Fund does so, it will report to you shortly after each year your share of the foreign taxes it paid and its foreign-source income.

■ Withholding

Federal law requires the Fund to withhold (referred to as “backup withholding”) and remit to the U.S. Treasury 24% of (1) dividends, capital gain distributions, and proceeds of redemptions, regardless of the extent to which gain or loss may be realized, otherwise payable to any individual shareholder who fails to furnish the Fund with a correct taxpayer identification number and (2) those dividends and distributions otherwise payable to any individual shareholder who:

- Underreports dividend or interest income or
- Fails to certify that he or she is not subject to backup withholding.

Backup withholding is not an additional tax, and any amounts so withheld may be credited against a shareholder’s federal income tax liability or refunded. To avoid this withholding, you must certify on your application, or on a separate IRS Form W-9 supplied by the Fund’s transfer agent, that your taxpayer identification number is correct and you currently are not subject to backup withholding.

■ Reporting

The Fund will report information to you annually concerning the tax status of your dividends and other distributions for federal income tax purposes. In addition, the Fund (or its administrative agent) must report to the IRS and furnish to its shareholders the basis information for Covered Shares and indicate whether they had a short-term (one year or less) or long-term (more than one year) holding period. You should consult with your tax adviser to obtain more information about how the basis reporting law applies to you.

SHAREHOLDER MAILINGS

■ Householding

Through our ongoing efforts to help reduce Fund expenses, each household will receive a single copy of the Fund's most recent shareholder reports and prospectus. You will receive a single copy if you and/or a family member own more than one account in the Fund. This eliminates duplicate copies and saves paper and postage costs for the Fund. However, if you would like to receive individual copies, please contact us; and we will begin your individual delivery within 30 days of your request.

■ Electronic Delivery

Log on to [usaa.com](https://www.usaa.com) and sign up to receive your statements, confirmations, financial reports, tax documents, and prospectuses electronically instead of through the mail.

ADDITIONAL INFORMATION

The Trust enters into contractual arrangements with various parties, including, among others, the Fund's manager, transfer agent, and distributor, who provide services to the Fund. Shareholders are not parties to, or intended (or "third-party") beneficiaries of, any of those contractual arrangements, and those contractual arrangements are not intended to create in any individual shareholder or group of shareholders any right to enforce them against the service providers or to seek any remedy under them against the service providers, either directly or on behalf of the Trust or the Fund.

This prospectus provides information concerning the Trust and the Fund that you should consider in determining whether to purchase shares of the Fund. Neither this prospectus nor the related SAI is intended to be, or should be read to give rise to, an agreement or contract between the Trust or the Fund and any investor, or to give rise to any rights in any shareholder or other person other than any rights under federal or state law that may not be waived.

FINANCIAL HIGHLIGHTS

The following financial highlights tables are intended to help you understand the financial performance of the Fund Shares, Institutional Shares, and Adviser Shares for the Fund over the past five years or since inception. Certain information reflects financial results for a single share. The total returns in the tables represent the rate that an investor of the Fund Shares, Institutional Shares, and Adviser Shares would have earned (or lost) on an investment in the Fund (assuming reinvestment of all income dividends and capital gain distributions).

The information has been derived from financial statements audited by Ernst & Young LLP, an independent registered public accounting firm, whose report, along with the Fund's financial statements, is included in the Fund's annual report to shareholders, which is available upon request.
