## USAA GROWTH FUND

### Fund Shares (USAAX) ■ Institutional Shares (UIGRX)

Beginning January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Fund's shareholder reports will no longer be sent by mail unless you specifically request paper copies of the reports from the Fund or from your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on [usaa.com](http://usaa.com), and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change, and you need not take any action. You may elect to receive shareholder reports and other communications from the Fund or your financial intermediary electronically by notifying your financial intermediary directly.

You may elect to receive all future reports in paper free of charge. You can inform the Fund or your financial intermediary that you wish to continue receiving paper copies of your shareholder reports by notifying your financial intermediary directly. Your election to receive reports in paper will apply to all funds held with the USAA family of funds or your financial intermediary.

Before you invest, you may want to review the Fund's statutory prospectus, which contains more information about the Fund and its risks.

You can find the Fund's statutory prospectus and other information about the Fund (including the Fund's Statement of Information ("SAI")) online at [usaa.com/prospectus](http://usaa.com/prospectus).

You also can get this information at no cost by calling (800) 235-8396 or by sending an e-mail request to [prospectus@usaa.com](mailto:prospectus@usaa.com). The Fund's statutory prospectus and SAI dated December 1, 2019, are incorporated herein by reference.

You also may obtain this information at no cost from your financial intermediary.

## INVESTMENT OBJECTIVE

The **USAA Growth Fund** (the “Fund”) seeks long-term growth of capital.

## FEES AND EXPENSES

The tables below describe the fees and expenses that you may pay, directly and indirectly, to invest in the Fund. The annual fund operating expenses for the Fund Shares and Institutional Shares are based on expenses incurred during the Fund’s most recently completed fiscal year.

### Shareholder Fees

(fees paid directly from your investment)

	Fund Shares	Inst. Shares
	None	None

### Annual Fund Operating Expenses

(expenses that you pay each year as a percentage of the value of your investment)

	Fund Shares	Inst. Shares
Management Fee	0.65% <sup>a</sup>	0.65% <sup>a</sup>
Distribution and/or Service (12b-1) Fees	None	None
Other Expenses	0.27%	0.23%
<b>Total Annual Fund Operating Expenses</b>	<b>0.92%<sup>b,c</sup></b>	<b>0.88%<sup>b,c</sup></b>

<sup>(a)</sup>Victory Capital Management Inc. (the “Adviser”) has agreed that no performance adjustment (positive or negative) will be made to the amount payable to the Adviser from July 1, 2019, through June 30, 2020. Thereafter, the management fee may fluctuate based on the Fund’s performance relative to a securities market index. See **Fund Management** section for a description of the performance adjustment.

<sup>(b)</sup>The expense information in the table has been restated to reflect current fees.

<sup>(c)</sup>The Adviser has contractually agreed to waive its management fee and/or reimburse expenses so that the total annual operating expenses (excluding certain items such as interest, taxes, and brokerage commissions) do not exceed 0.92% of the Fund Shares and 0.88% of the Institutional Shares, through at least June 30, 2021. The Adviser is permitted to recoup advisory fees waived and expenses reimbursed for up to three years after the fiscal year in which the waiver or reimbursement took place, subject to the lesser of any operating expense limits in effect at the time of: (a) the original waiver or expense reimbursement; or (b) the recoupment, after giving effect to the recoupment amount. The amount of any waivers or reimbursements and the amount of any recoupment is calculated without regard to the impact of any performance adjustment to the Fund’s management fee. This agreement may only be terminated by the Fund’s Board of Trustees.

### Example

This example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. Although your actual costs may be higher or lower, you would pay the following expenses on a \$10,000 investment, assuming (1) a 5% annual return, (2) the Fund’s operating expenses remain the same, (3) you redeem all of your shares at the end of the periods shown, and (4) the expense limitation agreement for each class of shares is not continued beyond its expiration date.

	1 Year	3 Years	5 Years	10 Years
<b>Fund Shares</b>	\$94	\$293	\$509	\$1,131
<b>Inst. Shares</b>	\$90	\$281	\$488	\$1,084

### Portfolio Turnover

The Fund pays transaction costs, including commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when shares of the Fund are held in a taxable account. These costs, which are not reflected in the Annual Fund Operating Expenses or in the Example, affect the Fund’s performance.

For the most recent fiscal year, the Fund’s portfolio turnover rate was 70% of the average value of its whole portfolio.

## PRINCIPAL INVESTMENT STRATEGY

The Fund invests its assets primarily in a diversified portfolio of equity securities selected for their growth potential. Although the Fund will invest primarily in U.S. securities, it may invest up to 20% of its total assets in foreign securities, including securities issued in emerging markets. The Fund employs a multi-manager structure with the underlying managers implementing fundamentally driven security selection investment processes that focus on companies exhibiting high levels of growth. The Fund’s assets may also invest in warrants, rights, real estate investment trusts, convertible securities, and in nonconvertible debt securities when it is believed that these securities will offer a good prospect for appreciation.

## PRINCIPAL RISKS

The Fund’s investments are subject to the following principal risks:

**Stock Market Risk** – Overall stock market risks may affect the value of the Fund. Factors such as domestic and international economic growth and market conditions, interest rate levels, and political events affect the securities market.

**Equity Risk** – The value of the equity securities in which the Fund invests may decline in response to developments affecting individual companies and/or general economic conditions. A company’s earnings or dividends may not increase as expected. Price changes may be temporary or last for extended periods.

**Foreign Securities Risk** – Foreign markets can be more volatile than the U.S. market due to increased risks of adverse issuer, political, regulatory, market, or economic developments and can perform differently from the U.S. market.

**Emerging Markets Risk** – Foreign securities risk can be particularly heightened because investments in emerging-market countries generally are more volatile than investments in developed markets. Emerging-market countries are less economically diverse and mature than more developed countries and tend to be politically less stable.

**Sector Risk** – To the extent the Fund invests in one or more sectors, such as the information technology sector, it is subject to the risks faced by these companies, such as intense competition and potentially rapid product obsolescence.

Information technology companies also are heavily dependent on intellectual property rights and may be adversely affected by the loss or impairment of those rights.

**Management Risk** – The Fund is actively managed, and the investment techniques and risk analyses used by the Fund’s portfolio managers may not produce the desired results.

Any investment involves risk, and there is no assurance that the Fund’s objective will be achieved. By itself, the Fund does not constitute a complete investment plan. As you consider an investment in the Fund, you also should take into account your tolerance for the daily fluctuations of the financial markets and whether you can afford to leave your money in the Fund for long periods of time to ride out down periods. As with other mutual funds, losing money is a risk of investing in the Fund.

An investment in the Fund is not a deposit in a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

## PERFORMANCE

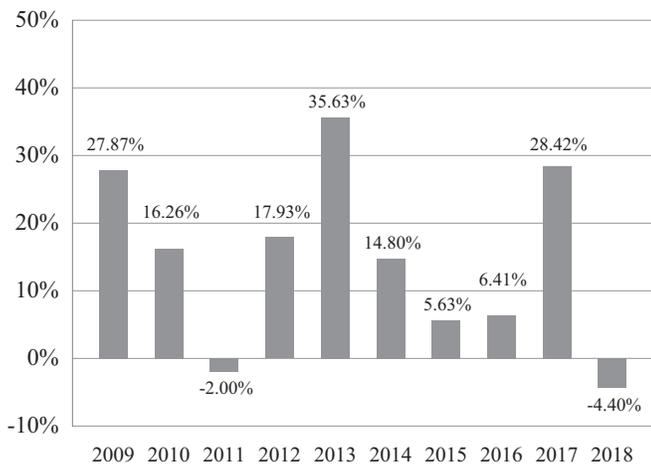

The following bar chart and table are intended to help you understand the risks of investing in the Fund. The Fund has two classes of shares: Fund Shares and Institutional Shares. The bar chart provides some indication of the risks of investing in the Fund and illustrates the Fund Shares class’s volatility by showing how performance has varied from year to year for each full calendar year over the past 10 years. The table shows how the average annual total returns of the share classes for the periods indicated compared to those of the Fund’s benchmark index and an additional index of funds with similar investment objectives. Performance reflects any expense limitations in effect during the periods shown.

Performance data for the classes varies based on differences in their fee and expense structures. Remember, historical performance (before and after taxes) does not necessarily indicate what will happen in the future. For the Fund’s most current performance information, log on to [usaa.com](http://usaa.com) or call (800) 235-8396.

During the periods shown in the chart:	Returns	Quarter ended
Highest Quarter Return	13.99%	March 31, 2012
Lowest Quarter Return	-15.09%	September 30, 2011

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. In certain situations, the return after taxes on distributions and sale of fund shares may be higher than the other return amounts. A higher after-tax return may result when a capital loss occurs upon redemption and translates into an assumed tax deduction that benefits the shareholder. The actual after-tax returns depend on your tax situation and may differ from those shown. If you hold your shares through a tax-deferred arrangement, such as an individual retirement account (“IRA”) or 401(k) plan, the after-tax returns shown in the table are not relevant to you. Please note that after-tax returns are shown only for the Fund Shares and may differ for each share class.

**RISK/RETURN BAR CHART**  
**Annual Returns for Periods Ended December 31**

The year-to-date return of the Fund Shares class as of September 30, 2019, was 16.85%.

## PURCHASE AND SALE OF SHARES

### Fund Shares:

You may purchase or sell Fund Shares any business day through the [usaa.com](http://usaa.com) website or by telephone at (800) 235-8396. You also may purchase or sell Fund Shares through certain other financial intermediaries. If you have opened an account directly with the Fund, you also may purchase and sell Fund Shares by mail at P.O. Box 659453, San Antonio, Texas 78265-9825.

- **Minimum initial purchase:** \$3,000
- **Minimum subsequent investment:** \$50

### Institutional Shares:

The Institutional Shares are not offered for sale directly to the general public. The minimum initial purchase is \$1 million; however, the Fund reserves the right to waive or lower purchase minimums in certain circumstances.

## TAX INFORMATION

The Fund intends to make distributions that generally will be taxed to you as ordinary income or long-term capital gains, unless you are a tax-exempt investor or you invest through an IRA, 401(k) plan, or other tax-deferred account (in which case you may be taxed later, upon withdrawal of your investment from such account).

## PAYMENTS TO BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of such shares and certain servicing and administrative functions. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your financial adviser to recommend the Fund over another investment. Ask your financial adviser or visit your financial intermediary's website for more information.
